

The background image shows an industrial facility, possibly a refinery or chemical plant, at dusk or dawn. Several tall, cylindrical smokestacks are visible, some with lights at their bases. The facility's complex network of pipes and structures is reflected in a body of water in the foreground. A large, semi-transparent red circle is positioned on the left side of the image, partially overlapping the text. A smaller, semi-transparent white circle is located below the main text, overlapping the red one and the background image.

KARAPLASTIC

LEADING IN QUALITY

ABOUT US

• 1) Supply • 2) Logistic Services we tried to improve our customers services.

1) Supply:

In supply field, we have direct connection with most petro- chemical complexes in Iran, in order to continuously supply our customers based on their demand. Attend in Iranian pet- rochemical tenders held by petrochemical companies such as Jam, Bakhtar Marun Amirkabir, Laleh, Khalijefars, Tabriz and PGPC, is one of the polymer seller group means to supply products to our customers.

2) Logistic:

In logistic field, because of communication with wide range of shipping and transport companies, it's possible for us to serve customers with various delivery terms based on their demands. Also if customers prefer to carry products with foreign transport without naming Iran in the logistic documents, we can arrange it.
